DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 – 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsuo et al. (US 655526) or Kato et al. (5945121).

Matsuo teaches an ophthalmic composition (abstract) comprising pyridoxine hydrochloride, chondroitin sulfate, and methyl cellulose (col.4 line 10-49) and methods for treating eye irritation (col.1-2) by administering the compositions.

Kato teaches ophthalmic compositions comprising pyridoxine hydrochloride, sodium chondroitin sulfate, methyl cellulose, hydroxyethyl cellulose, and/or hydroxypropylmethyl cellulose (col.2 line 6-33) and methods for treating eye discomfort by administering the composition (col.1).

The references anticipate the claimed subject matter.
